“The Idaho Golf Course Superintendents Association is dedicated to helping its members provide the best playing conditions in an environmentally friendly manner.”

The Idaho Golf Course Superintendents Association invites your facility to donate rounds with carts to the Idaho GCSA annual silent auction in February.

The proceeds from the silent auction help to fund the continuing education programs of the Idaho GCSA, as well as research applicable to the region. With the funding, it helps to keep our user fees low so all courses may participate and benefit - regardless of facility budget size. As a result, these programs help our regional superintendents provide the best playing conditions possible, within their budget, and the golfer is the ultimate benefactor of the experience.

If you have any questions concerning this program, or any of the Idaho GCSA programs, please contact our chapter president, Gerald Flaherty, CGCS, The Valley Club, (208) 788-5910.

We are grateful for the support of the turfgrass professionals in the Idaho GCSA region, and the turfgrass profession.

Your participation would be greatly appreciated.

With gratitude,

Lori Russell
Executive Director
